

Imagine your landscape!

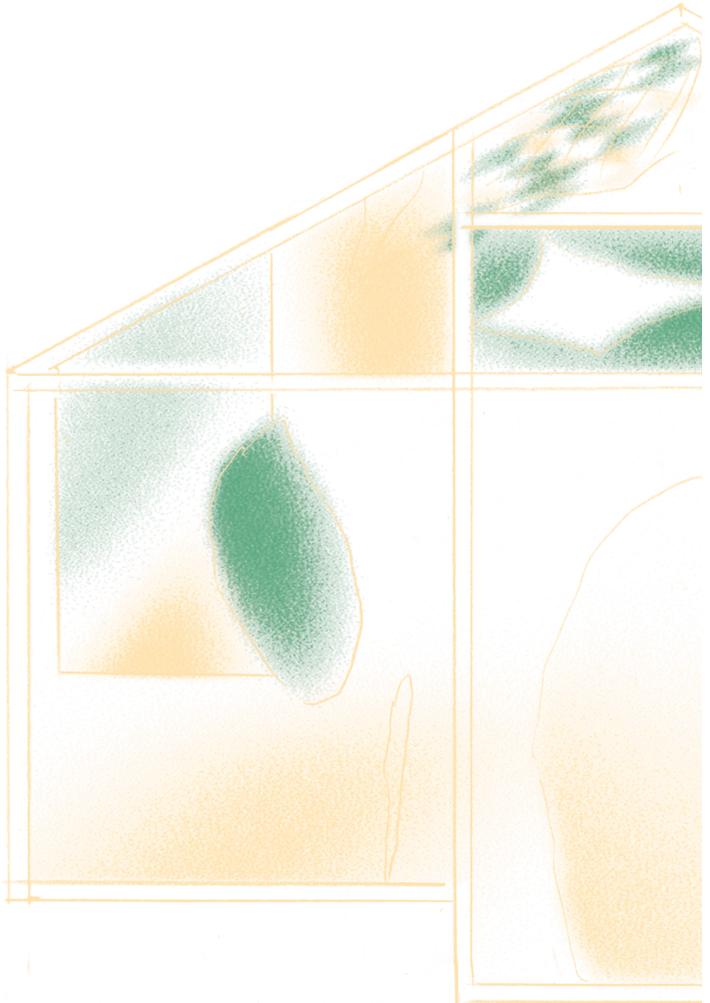

In The Tower on Level 9

Some buzzing in The Tower

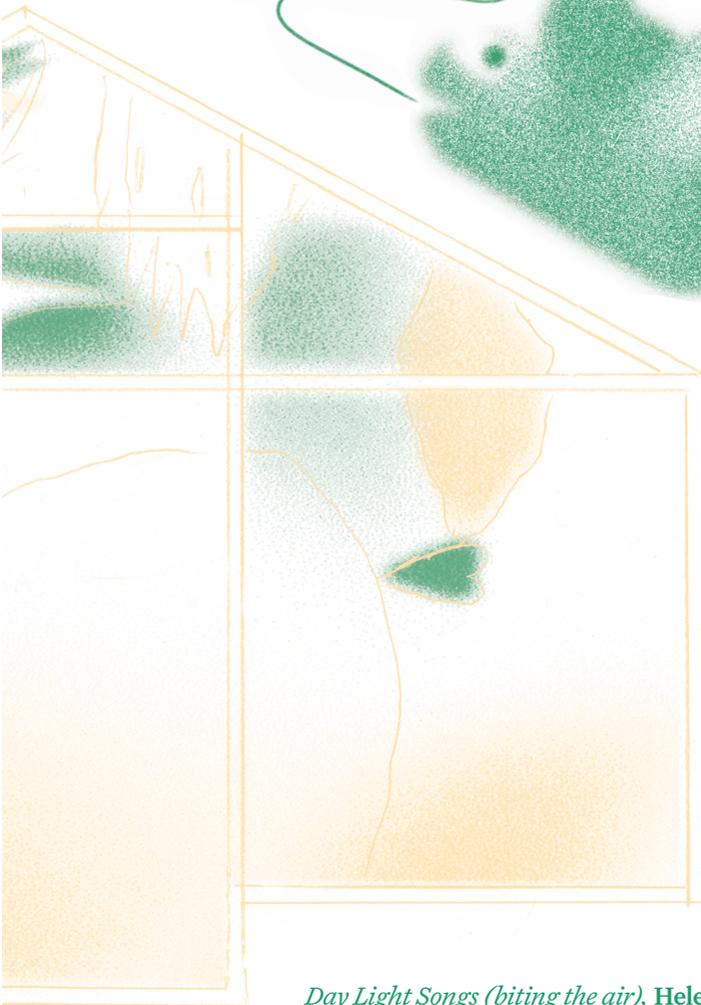

In *The Tower*, artist Helen Marten has created a colorful stained-glass window that plays with daylight.

Once in the staircase, take a closer look at the artwork to find the hidden insects. Now you can imagine your own insects on this drawing!

Round and round and...

 In The Tower, Level 2

Draw a next to how you feel after going down the slides. Ask the people with you how they felt too.

- “My head is spinning.”
- “My tummy feels weird.”
- “I feel in a better mood.”
- “I had a lot of fun.”
- “I was a little scared.”
- “I feel brave.”
- “I won't do it again anytime soon!”

Off to art we go

If you take a stroll towards the Café du Parc, you can walk on an artwork! This mosaic by Kerstin Brätsch was designed as “a painting that looks at the sky.”

Lumio is stuck inside the mosaic, but they want to get back to the lawn. Fly away and help them find their way back to the *** ** * !**

At the Café du Parc

As you walk around, you may see small wooden houses hanging from the trees. These are nesting boxes to help birds and bats settle in. Each one is home to a specific species.

Funny sculpture

 In the landscaped park

You can walk around the giant sculpture designed by artist Franz West to see it in its entirety.

The mistral – a very strong wind – was so powerful it blew the artwork over! Pick your favorite viewpoint and try to put it back together.

Become a plant detective

All around you, you can see species typical of the Alpilles: stone pines, arbutus, holm oaks, euphorbias, rockroses... and even rosemary. Now climb to the top of the large lawn at the back of the park, where you will have a splendid view of the entire Parc des Ateliers.

Can you find the two plants you won't see in the park?

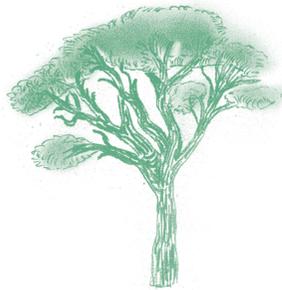

palm tree

weeping willow

cactus

stone pine

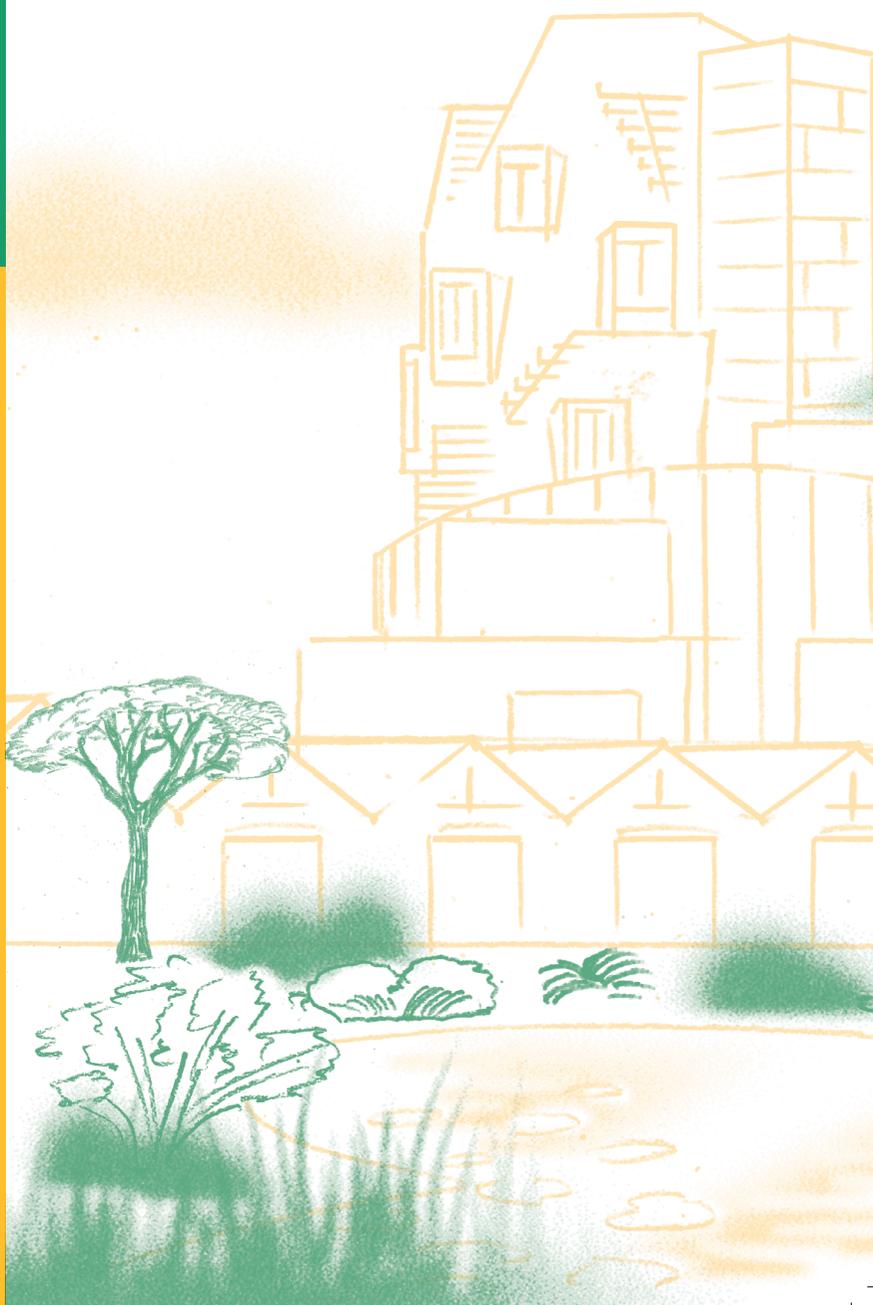

rosemary

water lilies

Waffles in the sky

You are now in the Cour des Forges, which lost its roof in a fire. Today, it is covered by a colorful canopy that provides shade.

Since Lumio is suffering from the sun, you can put them in the shade by completing the canopy.
